Revised March 2025

Cover Crop Seed and Native Seed Vendors for California

Obtaining cover crop seed or native seed is a requirement when implementing many NRCS conservation practices. Cover crop seed is recommended by NRCS for use in agronomic practices to improve soil health, increase water holding capacity, suppress weeds, reduce surface evaporation, provide forage, and prevent soil erosion. California native seed is used in many NRCS wildlife habitat improvement, restoration, and stabilization projects.

Locating a vendor who sells cover crop seed or native seed may be tricky if you are unsure where to look. The purpose of this Technical Note is to provide producers, landowners, and planners with a list of vendors who sell cover crop seed and native seed for California. The cover crop seed list includes sources for conventional, organic, and untreated seed. If you are interested in buying native plants, refer to the [California Native Link Exchange](#) to find vendors in your area. If any of the information is no longer accurate, or new seed vendors need to be added to the list please, contact Shawn Vue at ph: (209) 727-5319 or email: Shawn.Vue@usda.gov, or contact Margaret Smither-Kopperl at ph: (209) 727-5319 or email: Margaret.Smither-Kopperl@usda.gov. This list does not constitute an endorsement of the vendors, nor does it guarantee the reliability or quality of products.

Cover Crop Seed and Native Seed Vendors for California

Below is a table of vendors that carry cover crop seed and/or California native seed. Checked boxes indicate whether the vendor carries conventional cover crop seed, certified organic seed, or untreated seed. The table also indicates if the vendor is wholesale only. In addition to these listed seed vendors, be sure to check with your local farmers' co-op and farm supply store.
